Experience

Verizon Wireless / Frontend & Target Developer

JULY 2017 - PRESENT, NEW YORK

Specialist in Adobe target development. This unique role requires communication and collaboration with business stakeholders, UX, development, and the analytics team to generate and test optimization ideas across vzw.com. Successfully developing and launching hundreds of custom A/B tests across vzw.com, with thousands of user views, and with quantifiable results.

CareerFoundry / Web Developer Mentor & Tutor

MARCH 2019 - PRESENT, REMOTELY

Helping students on a day-to-day basis, being in constant contact with the students and building relationships with them. Guiding students through the course by providing motivational feedback and advice in written form, individualized video reviews at the end of their projects, and video calls via Skype. Aid the students in creating an industry-ready portfolio that is in line with the current industry standards and best practices.

LendIt / Front End Developer

OCTOBER 2016 - JULY 2017, NEW YORK

LendIt is the largest conference series dedicated to connecting the global online lending community. Contributed extensive design and development on the awards pages, agenda track pages, networking page, & development of interactive & responsive pages.

Education

New Jersey Institute of Technology / Bachelors of Science - Mechanical Eng.

SEPTEMBER 2004 - MAY 2008, NEWARK, NEW JERSEY

Udacity / Frontend Web Development - Nanodegree

JAN 2016 - MARCH 2016, NEW YORK

CareerFoundry / Fullstack Web Development Immersion - Certificate

MARCH 2016 - MAY 2016, NEW YORK

Highlights

[Nodb chat app](#) / No database chat ("nodb chat") is built with React-native and Expo. The whole concept is to not save any of your "data" (i.e. messages) by allowing the user to delete or set a timer to scrub their data.

[Speechy](#) / Speechy is an audio transcriber utilizing the power of Google's Speech API. It allows a user to transcribe speech to text and convert audio files into text.
